generate
exposure.

\$50.00 Resume Review - Basic

This package offers a 45-minute telephone and e-mail review of your job-seeker's resume. Consumers will receive advice and direction regarding goal definition, language enhancement, and contemporary formatting protocol. This is a basic package that provides job-seekers with a quick and effective way to tighten up their resumes to conform to the competitive standards of individual industries. The job-seeker and their referral source are provided with a written overview of all of the recommended changes.

\$230.00 iSearch - Standard

This solution offers enhanced tools designed to support your job-seeker with not only resume re-writes, but resume distribution and publication as well. Once job-seekers provide a basic resume, our experts will work to create electronic profiles on select job-boards, such that they meet current internet trends while garnering maximum exposure. Edits include language and style modifications, which are designed to coincide with on-line Boolean logic filters and industry specific vernacular. Job-seekers also receive 2 hours of telephone and internet support, which provides them with instructions on using electronic job boards effectively. Referral sources receive detailed performance summaries of the new resume/profile along with feedback regarding the job-seeker's skills, aptitude, and enthusiasm in the electronic job search process.

\$270.00 Competitive Risk Review

Case managers who decide to utilize the **iSearch Standard** solution, then have the option to purchase this additional benefit. The purpose of the **Competitive Risk Review** is to provide the referral source with a comprehensive report detailing a job-seeker's competitive electronic job search results. This summary includes a review of the job-seeker's activity (over 30 days), a summary of the number and types of positions applied for, and an evaluation of how the job-seeker resonates with the competitive requirements of their desired market. This is based on surveys of their electronic competition. Additionally, this package offers case managers the opportunity to review job-seeker preparedness as it relates to interview skills and independent job search efforts.

\$700.00 Search Mentor

This independent solution provides support over the course of 8 weeks during which the job-seeker is assisted via telephone and e-mail on a weekly basis. Job-seekers are provided with employment leads, assistance with writing customized cover letters, and given access to local job search support resources. Additionally, they are provided with objective feedback relevant to their competitive employment goals, market availability of their desired position, and a view of how they compare to their electronic competition. This service includes the research required to locate and coordinate appropriate job leads according to the job-seeker's goals. Referral sources receive a written summary at the conclusion of week four and week eight.
